PROFESSIONAL EXPERIENCE

Senior Software Engineer

Code Connect – Remote 12/24 – present

- Spearheaded the development of an AI chatbot for an educational portal, implemented RAG pipelines using LangGraph, LangChain, and Pinecone to deliver accurate, context-aware responses.
- Performed advanced prompt engineering and model optimisation for GPT-4o, Gemini Flash 1.5 Pro, DeepSeek R1, and Amazon Bedrock foundation models.
- Built and deployed serverless AI services on AWS Lambda, managing infrastructure with Terraform and delivering seamless Vue.js UI integration while coordinating sprint planning and product backlog for RAG features.

Lead Developer

Workroom.build – Remote 02/24 – 12/24 (*10 months*)

- Managed cross-functional multinational team in building generative AI proof of concept, coordinating between technical and business stakeholders
- Defined product vision for AI-powered web applications
- Led product discovery sessions using LangChain, FastAPI, Next.js & OpenAI to identify market opportunities
- Engineered a multi-model AI agent capable of handling complex task automation.
- Streamlined data processes through third-party API integration for scraping, searching, and visualization.
- Facilitated agile ceremonies including sprint planning, standups, & retrospectives

EDUCATION

Master of Science in Computer Science

University of Karachi – Karachi, Pakistan
01/2009
Percentage: 70%

Bachelor of Science in Computer Science

University of Karachi – Karachi, Pakistan
12/2005
GPA: 3.5

CORE COMPETENCIES

- **Full-Stack Development**
  MERN, Python, JavaScript, TypeScript
- **Generative AI Models**
  GPT 4o, O3 min, GPT 4o minihugginface, Gemini and Deepseek R1
- **Agentic Framework**
  Langchain, Langgraph, and CrewAI
- **Vector Database**
  Pinecone, PGVector, and FAISS
- **Cloud Technologies**
  AWS and GCP
- **API Development**

Tech Lead

Groupshop – Remote 01/21 – 02/24 (*3 years, 1 month*)

- Managed product development lifecycle for custom Shopify application, ensuring delivery within tight deadlines
- Mentored a team of developers, improving code quality through structured reviews.
- Devised scalable, efficient software architecture using Node.js, TypeORM, NestJS, and GraphQL.
- Strengthened quality assurance through code reviews and testing protocols, and applied test-driven development in React to cut production errors by 15%.

Sr. MERN Developer

ENN Technologies – Remote 01/20 – 01/21 (*1 year*)

- Designed and deployed responsive web applications using the MERN stack.
- Enhanced database performance with optimized queries, leading to a 10% efficiency boost.
- Integrated AWS for streamlined cloud-based deployment solutions.
- Led performance optimization initiatives, resulting in 10% increase in application performance
- Facilitated client communications and requirements gathering sessions

Senior Development Engineer

Auto360 – Remote 07/19 – 01/20 (*6 months*)

- Led mobile app architecture development, managing cross-functional collaboration that improved performance by 20%
- Collaborated with product teams to define long-term strategies for scalability and data security
- Managed technical roadmap and coordinated with stakeholders on feature prioritization.
- Collaborated cross-functionally to define scalability strategies and ensure data security compliance.

Sr. Web Developer

InGenious – Remote 01/16 – 01/19 (*3 years*)

- Built scalable web applications, accelerating development timelines by 25% with reusable code libraries.
- Leveraged PHP, Laravel, and JavaScript to deliver secure web platforms tailored to client needs.
- Collaborated with QA and UX teams to improve product usability.

REST and GraphQL

- **Agile & CI/CD Practices**
  Jira, Git, and Jenkins
- **Database**
  MongoDB, MySQL, and PostgreSQL
- **Version Control**
  Git, GitHub, and GitLab
- **Team Leadership & Mentorship**
- **Software Architecture Design**
  Terraform infrastructure as code
- **UX/UI Design**

SOFT SKILLS

- **Leadership**: Guided teams and mentored developers.
- **Communication**: Simplified complex concepts for stakeholders.
- **Problem-Solving**: Developed innovative solutions.
- **Time Management**: Managed multiple projects and met deadlines.
- **Collaboration**: Worked effectively within teams.
- **Adaptability**: Quickly adjusted to changing needs.
- **Decision-Making**: Made informed choices under pressure.
- **Attention to Detail**: Ensured high code quality and performance.

CERTIFICATIONS

- **Introduction to LangGraph**
  LangChain, Issued Oct 2024, Credential ID niwplblwml
- **ChatGPT Prompt**

Web Technologies Professional

BusinessJot 11/13 – 12/16 (*3 years, 1 month*)

- Designed and maintained web portals with on-demand functionality, improving client satisfaction.
- Oversaw web application deployment and maintenance, ensuring reliability and data security.

Senior Software Developer

Kolachi Advanced Technologies 06/12 – 01/13 (*7 months*)

- Collaborated on trading software (XTreme), enhancing trading efficiency through custom feature development.
- Designed a loyalty points portal leveraging Yii framework and MySQL.
- Developed web components with SmartClient and HTML5, adhering to performance benchmarks.

Software Engineer

KalSoft 07/11 – 04/12 (*9 months*)

- Contributed to three in-house projects, improving functionality and user experience.
- Implemented features using jQuery, AJAX, PHP, and MySQL, resolving performance bottlenecks.

Web Developer

Right Solutions 07/10 – 06/11 (*11 months*)

- Developed dynamic web applications utilizing CodeIgniter, jQuery, and AJAX, enhancing responsiveness.
- Conducted website maintenance to ensure uptime and usability.

Web Developer

Logo Design Pvt Ltd 06/08 – 07/10 (*2 years, 1 month*)

- Maintained and enhanced internal CRM systems and e-commerce platforms.
- Implemented open-source social media tools to amplify site visibility and engagement.

Web Developer

Pakservice Network 03/06 – 06/08 (*2 years, 3 months*)

- Transitioned static websites to dynamic, PHP-driven platforms to improve functionality.
- Built five in-house websites utilizing PHP, HTML, CSS, and JavaScript.

Engineering for Developers
DeepLearning.AI, Issued Mar 2024
Skills: Prompt Engineering, ChatGPT

- **LangChain Chat with Your Data**
DeepLearning.AI, Issued Mar 2024
Skills: LangChain, Python, ChatGPT
- **LangChain for LLM Application Development**
DeepLearning.AI, Issued Mar 2024
Skills: LangChain, ChatGPT
- **Advanced React**
Meta, Issued Jun 2023
Credential ID: SA63PYR372T6
Skills: React.js, ES6, Typescript.
- **Building Conversational Experiences with Dialogflow**
Coursera Course Certificates, Issued May 2020
- **Deep Learning with TensorFlow 2.0**
365 Data Science, Issued Apr 2020
Credential ID: cert_99hw8473
Skills: Python
- **Scrum Alliance Certified Product Owner** (CSPO)
Issued Jul 2025 · Expires Jun 2027

PROJECTS

Workroom.bot
Developed AI agents to help enrich lists, research companies, or process hundreds of documents in minutes, all through a native table interface.
Tech Stack: Chakra UI, Next.js, FastAPI, LangChain, OpenAI, SQLAlchemy, PostgreSQL

Custom Shopify App
Initiated Version 2 of a running PHP app for Upsell, leveraging **Next.js**, **React-bootstrap**, **Context API**, **Custom Hooks**, **TypeScript**, **NestJS**, **TypeORM**, and **MongoDB**. Integrated **Shopify GraphQL API** to enhance functionality.
Tech Stack: Next.js, React-bootstrap, Typescript, MongoDB, NestJS, GraphQL

Packrit
Launched and maintained a website using **React.js**, **Material-UI**, **SASS**, and **Redux Toolkit**. Practiced **TDD with Jest & Enzyme** and built **Node Express APIs**. Deployed on **AWS Amplify** and **EC2**.
Tech Stack: React.js, Material-UI, Node.js, AWS Amplify, Redux, EC2

SearchSmartly
Collaborated with a UK-based team on a real estate platform using **React.js**, **Reactstrap**, **Redux**, **SASS**, and **Sequelize ORM**. Managed both frontend and backend integration using **Node Express API** and **Postgres DB**.
Tech Stack: React.js, Python, Django, Sequelize ORM, PostgreSQL

React UI Conversion
Converted Figma designs into a responsive **React.js** UI using **Tailwind CSS** and **Storybook** for UI components.
GitHub Repo: Link
Tech Stack: React.js, Tailwind CSS, Storybook

Backend API
Developed a REST API with **Node.js**, **Express**, and **MongoDB**. Integrated middleware and third-party API services for enhanced functionality.
Tech Stack: Node.js, MongoDB, Express

Job Portal
Developed a job portal using **React Redux** and **Firebase**, implementing an online template for the UI.
Tech Stack: React.js, Redux, Firebase

MERN Admin Panel
Created an admin panel using the **MERN stack** with **GraphQL** and deployed over **Heroku**. *Tech Stack*: MERN Stack, GraphQL, Heroku

AWS Serverless App
Built a serverless app using **React Hooks**, **Context API**, **AWS Amplify**, and **Material UI**. Deployed using **AWS Serverless**.
Tech Stack: React.js, AWS Amplify, S3, GraphQL, Material UI
